PROFESSIONAL SUMMARY

- Senior Design Engineer and Technology Director with proven experience bridging product architecture, interface design, and distributed full-stack engineering.
- Demonstrated track record architecting and deploying production-grade B2B platforms, SaaS products, and fintech integrations utilizing Next.js, TypeScript, Supabase, and PostgreSQL.
- Skilled in translating complex business requirements into resilient technical specifications, database schemas, and modular systems under strict 150-lines-per-module conventions.
- Experienced in managing cross-functional technical teams, executing agile sprint cycles, and maintaining enterprise standards across security, automated testing, and UX design.

CORE TECHNICAL & ADVISORY COMPETENCIES

- **Architecture & Full-Stack:** Next.js, React, TypeScript, JavaScript, Node.js, Express, Python, RESTful APIs, GraphQL, Clean Architecture (<150 LOC/module)
- **Fintech & Payment Rails:** Paystack, Flutterwave, Monnify, Stripe (Split Payments, Virtual Accounts, Idempotent Webhooks, Ledger Reconciliation)
- **Cloud & Data Systems:** PostgreSQL, Supabase, MongoDB, Cloudflare (DNS, Edge R2), Vercel, Docker, CI/CD Automated Pipelines
- **Quality, Security & Governance:** Unit & Integration Testing (Jest, Vitest), Row Level Security (RLS), RBAC, ISO 9001:2015 QMS, Webhook HMAC Verification
- **Product Design & Systems:** Figma, Design Tokens, Accessible Design Systems (WCAG AA), Rapid Prototyping, Usability Auditing
- **AI & LLM Integration:** LLM API Orchestration (OpenAI, Anthropic), Structured Context Engineering, Zod Runtime Schema Validation

PROFESSIONAL EXPERIENCE

Chief Technology Officer & Lead Architect | Uselango

March 2026 – Present | Lagos, Nigeria

- Architected a B2B distribution engine connecting 1,200+ retail merchants directly to FMCG manufacturers using Next.js, TypeScript, and Supabase.
- Integrated Flutterwave and Paystack rails with idempotent processors, automating 99.4% of reconciliations and merchant escrow payouts.
- Deployed distributed edge infrastructure on Cloudflare and Vercel, ensuring sub-250ms p95 latency and a 99.95% uptime SLA.

Technology Director & Principal Consultant | Avemas Studio

December 2025 – Present | Lagos, Nigeria

- Direct engineering delivery and technical strategy across 14+ client web applications and SaaS MVPs using Next.js, React, and Tailwind CSS.
- Standardized cross-platform design tokens and Figma component libraries, cutting design-to-code sprint handoffs by 35%.
- Built multi-currency billing engines via Stripe Billing and Flutterwave, managing recurring cross-border subscriptions with zero ledger drift.
- Enforced strict modular architecture (<150 LOC/module), driving a 40% reduction in post-release client defect tickets.

Founding Systems Engineer | Fidesagro

January 2026 – Present | Lagos, Nigeria

- Engineered digital agritech commerce rails, onboarding 850+ suppliers and handling 15,000+ monthly catalog queries with zero downtime.
- Integrated Monnify dynamic virtual accounts and Paystack checkout, reducing invoice reconciliation from 48 hours to instant settlement.
- Hardened transactional reliability with automated Vitest suites (92% code coverage), HMAC webhook verification, and retry queues.
- Indexed PostgreSQL schemas and optimized Supabase queries, cutting multi-filter search latency from 1.4s to under 120ms.

Senior Full Stack Developer | Taxculate

January 2025 – February 2026 | Remote

- Built a U.S. tax compliance SaaS scaling to 100+ active filers across 4 state jurisdictions using Next.js, TypeScript, and Supabase.
- Engineered deterministic tax calculation engines with 140+ unit/integration tests, processing \$4M+ in deductions with 0% calculation drift.
- Implemented Stripe subscription and credit billing, securely transacting \$50K+ with a 99.8% webhook reconciliation rate.
- Designed 3-step onboarding flows and RBAC security, reducing tax prep time by 35% and boosting completion conversion by 31%.

Lead Product Design Engineer | Testbloq

September 2024 – February 2026 | Remote

- Directed end-to-end product architecture for an AI assessment and proctoring platform serving 1,000+ candidates across institutional windows.
- Built a Figma design system with 180+ accessible components and responsive tokens, ensuring 100% WCAG AA compliance.
- Executed usability audits across 40+ user cohorts, cutting candidate onboarding drop-offs and setup friction by 25%.
- Authored system specifications, interaction diagrams, and investor pitch collateral that secured

institutional pilot contracts.

SELECTED PRIOR ENGINEERING & DESIGN EXPERIENCE

- **Frontend Developer | NvisionHR** (*Jan 2024 – Aug 2024*): Engineered React HR portals for 2,500+ records; built virtualized data tables handling 10,000+ rows with sub-second queries and CSV exports.
- **Frontend Developer | Velocit8** (*Aug 2023 – Jan 2024*): Refactored legacy UI components into reusable modules, reducing bundle size by 42% and raising Lighthouse performance from 58 to 94+.
- **Product Designer | Zacrac & Maze Softwares** (*Aug 2021 – Sep 2023*): Designed responsive interfaces across 3+ enterprise deployments; synthesized complex data pipelines into 6 consolidated analytics dashboards.
- **Freelance Brand & Web Consultant** (*2019 – 2021*): Delivered brand packages and 12+ custom responsive websites for commercial SMEs, optimizing site architecture to raise page speeds by 40%.

LEADERSHIP & INSTITUTIONAL GOVERNANCE

Publicity Unit Lead | Chapel of Faith, FUTA

2019 – 2020 | Akure, Nigeria

- Directed digital media production, brand identity, and technical publicity campaigns reaching 200+ weekly attendees.
- Supervised an 8-person team across graphic design, social media scheduling, live broadcasting, and print production.
- Managed delivery schedules and staging assets across 2 major multi-day university conferences with 100% on-time execution.

EDUCATION & NATIONAL SERVICE

- **Bachelor of Technology (B.Tech) in Computer Science** — *First Class Honours*
Federal University of Technology, Akure (FUTA) | Graduated 2024
- **National Youth Service Corps (NYSC)** — Completed

CERTIFICATIONS & CREDENTIALS

- **ISO 9001:2015 Quality Management System (QMS) Project Management** — MSME Certified
- **Human Resource Management (HRM)** — MSME Certified
- **Product Design Certification** — Future Academy Africa
- **Executive Soft Skills Certification** — Jobberman Nigeria
